urban living shared ownership

Marlowe Place, Canterbury

Land-led city centre site in Canterbury. This was a high density scheme providing 20 high quality flats including a stunning penthouse all for shared ownership. The flats were sold on a 35% equity share, household earnings required range between £26k and £39k.

"West Kent went above and beyond with us and were very patient with us being first time buyers and knowing very little about the process. Emily always replied to emails within a reasonable amount of time and had an answer to our questions. We didn't have the best time with other aspects of the process and Emily kept us grounded, I don't think we would have made it through without her."

Shared owner

Bellway site, Edenbridge

As a partner of choice, strongly demonstrating some of our values of honesty and flexibility, this scheme saw us take handover of 107 units for rent and shared ownership over 3 phases.

"We have delivered a number of successful schemes and continue to work in partnership with West Kent on several projects. We enjoy an excellent working relationship at all levels of our respective organisations and continue to find them commercially competitive, professional and realistic in their approach."

Chris Moore, Bellway

Supporting thriving communities

We deliver community services to West Kent residents and other groups living in our communities. We are successfully delivering contracts and secured £1.3 million for community services in 2019, which funded projects across Kent.

Strengthening employability, skills and enterprise

"Thank you ever so much for all your support and careers advice – I am so happy to share with you that I have a career in admin after being offered a permanent role at interview... it means a lot you listened to my goals."

Support service from accessible community hubs.

- Drop in sessions to support people back to work or better paid work
- Job hubs

- Pop up business schools – enterprise support, practical help to set up a business

Three Abacus furniture shops run as a social enterprise, providing employment and skills opportunities, diverting usable goods from landfill and supporting local communities. We work in partnership with Golding Homes who approached us to establish a shop in Maidstone.

Promoting wellbeing and preventing crisis

- Housing related support and floating support to clients referred from Kent County Council and Medway Council.
- New service with rough sleepers in Medway.
- We run the Kent Support and Assistance service on behalf of Kent County Council, providing those in crisis with the essentials to make a home – beds, white goods and pans.

Building active, resilient communities

- Run activities and projects
- Help to source funding

Resident Influence

We are keen for our residents to have a voice and to influence our service delivery. We regularly hold workshops, focus sessions and have an online discussion forum. Residents helped choose our new building and electrical contractor.

Working with you

We are keen to understand the local area better, what is currently offered and future demand for services. We plan to invest in and extend our current housing stock and services to help meet that demand.

Please contact us if you would like:

- a tour of our stock and development sites in your area
- to talk through local challenges and how we might work together on a solution
- to just meet and find out more about us
